

**Continuing Education Class for Basic Residential and Light
Commercial License Holders**

Course Date: May 29, 2014

Time: 1st Class Starts 9:00 AM

Course sponsored by: Polk County Building Inspection Department

Who Should Attend: This class will provide an update on the new requirements of the 2012 International Residential, Plumbing, Mechanical, Gas and Building Codes. A second class will be held starting at 1:00 pm which will cover understanding air infiltration on building and understanding heat gain and loss effects. Who should attend? Residential Builders, Design Professionals, General Contractors and Inspectors should attend. All will benefit from the information provided in this class. This course qualifies for continuing three hours education credits toward professional licenses renewals and ICC certifications. A set of Georgia Amendments to the codes will be provided for those who attend.

Course Location: Polk County EMA Building Cedartown, Georgia

Contact: Phone: 770-749-2014 **Email:** bmcclay@polkga.org
